**OUR MISSION: TO IMPROVE THE SAFETY OF CAREGIVERS
AND THEIR PATIENTS BY ADVANCING THE SCIENCE AND
PRACTICE OF SAFE PATIENT HANDLING AND MOBILITY.**

The Association of Safe Patient Handling Professionals is an international organization driving best practices in Safe Patient Handling and Mobility. Members have opportunities for educational programming, member networking and certification. ASPHP is the premier association dedicated to the safety and success of caregivers. Join us today so together we can improve safety, reduce injury, and implement effective, safe patient handling programs for all healthcare workers.

MEMBERSHIP

Membership in ASPHP is open to anyone interested in the science and practice of SPHM. Join us as we advocate, inform and educate in an effort to drive change in the healthcare industry. ASPHP coordinates with regulatory bodies and other professionals and organizations in the industry to raise awareness on how SPHM practices help achieve better patient outcomes while protecting caregivers from injury.

Members have opportunities to learn and share with active SPHM professionals:

- Monthly webinars** presented by SPHM experts who are utilizing progressive, evidence-based research
- Regional networking events** full-day conferences with national/international speakers who relate SPHM practices to achieve better patient outcomes building a culture of safety and improving the success of early mobility activities.

- Continuing Education credits for educational sessions and events
- Members-only area of the ASPHP website with more tools and information
- Newsletters with current headlines

***Membership discounts*

CERTIFICATION

Healthcare workers and those in related businesses may pursue three levels of certification - associate, professional or clinician. Membership is not a requirement of Certification.
